

temperature/Humidity transmitter

Features: Designed to continuously monitor ambient temperature

- and humidity
- Transmits both temperature and relative humidity data to any controller to provide feedback on user-defined settings
- Selectable 4-20mA current or 0-1V, 0-2V, 0-5V outputs
- Easy to setup and operate
- Wall mountable

Specifications:

Supply Voltage:	10-36Vdc
output:	4-20mA
output Load:	50-1k Ω
Temp. Range:	0 to 85°C (0 to 185°F)
Accuracy:	$\pm 1^\circ\text{C}/^\circ\text{F}$
Humidity Range:	0 to 100% RH
Accuracy:	$\pm 3\%$ RH
Dimensions:	103 x 73 x 31mm
Probe Dimensions:	91 x 12mm

model	description
3501	Temperature/Humidity Transmitter
